

ARTICLE 400: PUBLIC HEALTH REGULATIONS.

Section 401. Public Health, in General.

No activity, situation, structure or land use shall be allowed within the watershed, which poses a threat to water quality and the public health, safety and welfare. Such conditions may arise from inadequate on-site sewage systems which utilize ground absorption; inadequate sedimentation and erosion control measures; the improper storage or disposal of junk, trash or other refuse within a buffer area; the absence or improper implementation of a spill containment plan for toxic and hazardous materials; the improper management of stormwater runoff; or any other situation found to pose a threat to water quality.

Section 402. Abatement.

- a. The Planning Director shall monitor land use activities within the watershed areas to identify situations that may pose a threat to water quality.
- b. The Planning Director shall report all findings to the Board of Adjustment. The Planning director may consult with any public agency or official and request recommendations.
- c. Where the Board of Adjustment finds a threat to water quality and the public health, safety and welfare, the Board shall institute any appropriate action or proceeding to restrain, correct or abate the condition and/or violation.
