

# CITY OF ARCHDALE

## CITY COUNCIL

**MEETING DATE:** Tuesday March 28, 2023

**SUBJECT:** Comprehensive Parks & Recreation Master Plan Update.

**RECOMMENDATIONS OR COMMENTS:** In November 2016, the City of Archdale approved a Comprehensive Parks & Recreation Plan. The plan was adopted following extensive public outreach efforts and a formal Needs Assessment.

One of the recommendations arising from the plan was for the City to explore opportunities to expand the park system, thereby making recreational facilities more accessible to all Archdale residents. While specific locations for future parks were not addressed, a map of potential service areas was included for reference (Figure 15).

In late 2021, the City of Archdale acquired the 7.42-acre Aldridge Ballfield facility off Davidson Street with a vision for providing expanded park services. In 2022, the City partnered with McGill Associates to develop plan options for redeveloping the property. A preferred alternative was selected in February 2023 after multiple public meetings and input sessions.

At this time, staff recommends amending the Comprehensive Parks & Recreation Master Plan to include the updated plans for Aldridge Park. This will ensure the Comprehensive Plan aligns with a proposed Master Plan for the redevelopment of Aldridge Park.

\*Additional documentation of the proposed update will be provided at the City Council meeting on 3/28/23\*
